

Confidence and Connections

IN-PERSON PLACEMENT TEST

GENERAL INFORMATION

The In-Person Placement Test for *Confidence and Connections* is designed to test students in person to place them in the correct level. The Speaking Test will be administered to students individually, and the Reading Test can be administered in a group setting.

TESTING

Use the Speaking and Reading Tests. You will need:

- **Evaluator Sheet for In-Person Individual Placement Test** * We recommend laminating this, as you will use it multiple times. This is where you'll find directions for administering the tests, answer key and scoring instructions.
- **Individual Speaking Test** You will need 1 copy per student.
- **Reading Test** You will need 1 copy per student.

To make the placement test process as smooth as possible, read this packet all the way through before administering the test.

EVALUATOR SHEET FOR IN-PERSON INDIVIDUAL PLACEMENT TEST

PART 1) SPEAKING TEST

1. Begin with the Speaking Test. Doing the Speaking Test before the Reading Test aids in accurate level placement.
2. Be friendly. Make sure student feels comfortable. Consider your environment and the appropriateness for testing - (Are you testing a low-level student in a noisy environment? Are you testing a person in front of a friend or relative that might be making them nervous?)
3. Explain that you will be asking questions, and that the student should answer each one with a complete sentence. Consider giving an example of what you mean by "complete sentence."
4. Ask each question only twice. If student still doesn't understand or can't answer, move to the next question.
5. Be strict. If you are unsure, give the lower score. Do not give half scores. (no 1.5. Only 0, 1, 2). Score each question as you go as a 0, 1 or 2, according to the following guidelines:

0 = Did not understand the question, did not give an answer, OR answer did not make sense for the question.
1 = Understood question BUT answered with incorrect grammar and or/an incomplete sentence.
2 = Understood question, answered in a complete sentence AND used correct grammar.
6. **Stop the Speaking Test** when the student gets any combination of **3 zeros or ones**.
7. Add scores of each question to find your total. Write the total score at bottom of "Individual Speaking Test" page.
8. See level equivalence at bottom of "Individual Speaking Test" page. Write level at top of page after considering Reading Test score.

NOTE: The score on the Speaking Test will be compared with the Reading Test to determine level.

PART 2) READING TEST

1. All students (except those placing into the Intro Level) should attempt to do the Reading Test.
2. If the student places into Level 1 or 2 on the Speaking Test, they should complete only questions 1 – 22 of the Reading Test. You may want to cross out the rest of the test so that students stop at the correct point. Students who place into Level 3 - 5 on the Speaking Test should do the complete Reading Test.
3. Tell student not to guess. If they don't know the answer, they should leave it blank.
4. Have them mark their answer with an X, directly on the test.
5. Check results of multiple-choice Reading Test:

8-15	2
16-22	3
23-29	4
30 -31	5
32-33	above the level of <i>Confidence and Connections</i>

6. Compare results of Speaking and Reading Tests.
 - We recommend that slightly more weight be put on the Speaking Test. For instance, if a student places in level 5 according to the Speaking Test and level 3 for the multiple-choice Reading Test, we suggest placing them in level 4.
 - If the person scores low or high in the range, consider which questions they missed, class size and student and teacher profile before deciding to place in higher or lower level.
