At Intercambio, we’re on a mission to bring English learners and community volunteers together in language classes and gatherings to build skills, confidence, and life-changing connections. The Intercambio Way of teaching English rethinks typical adult English for Speakers of Other Languages (ESOL) programming, centering relationship-based learning which bridges differences in language and culture, building more fair, just, and inclusive communities. We create programs, trainings, and curricula where all participants learn from each other’s experiences and perspectives.

The Intercambio Way

Intercambio launched the first iteration of our proprietary Confidence and Connections curriculum in August 2019. Since that time, we have improved and innovated, crafting resources, materials, and trainings for teachers and students to promote greater access and success. Our suite of products and services includes tools such as immigrant guides, pronunciation tools, and membership opportunities, so organizations can receive ongoing support and tap into a network of ESOL peers.
